"Hold up your hands!" commanded
the bandit.
A. C. Nicolett, 25, looked the high-

wayman squarely in the eye.
"Why should I?" he inquired, ac-

ording to his story to the police.
"If you don't I'll shoot," replied

"I dafe you to shoot," said Nico-

Motorists passing the scene shortly afterward picked up Nicolett. A bullet had shattered his jawbone.

despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it,

cine did not help me. A friend recom-mended Lydia E. Pinkham's Vege-table Compound and I have found great relief since using it. I keep house and have the care of five children and I am very thankful I have found Lydia E. Pinkham's Vegetable Compound such a help. I recommend it to any woman suffering as I was before I used it."—Mrs. MAUDE E. TAYLOR, 6 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic nendurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound.

### A Brain Can't Work Right On Thin, Watery Blood

It Takes Iron to Make Strong, Forceful, Magnetic Men With the Power and Energy to Win

Many a capable, intelligent man falls just short of success—nearly "gets there" but not quite—simply because he lacks sufficient iron in bis blood to give him the physical strength and power to furnish the proper force to his brain and the "stay there" strength to his "will." A brain cannot do its work right—think the thoughts that win—on thin, weak, watery blood any more than a locometive can pull a big train of cars with a weak, smoldering fire under the name of Nuxated Iron mated to be approximately equivalent (in organic iron content) to eating one-half and cars with a weak, smoldering fire under the name of proposition of special contents of spinach one quart of spinach one quart of green vegetables or half a dozen apples. Its like taxing extract of beef instead of eating pounds of mat,

its boiler.

When your blood is starving for iron no mere tonics nor stimulants can put you right. You must have iron, for without iron your blood loses its power to change food into living tissue and nothing you cat does the proper amount of good. You do not get the full strength out of it. To get iron you must eat the husks of grains and the peels and akins of fruits and vegetables as our forefathers did or take a little organic iron from time to time and eat more such iron-containing foods as spinach and apples. But be sure the iron you take is organic fron, and not metallic or mineral iron which people usually take. Metalize iron is just as it comes from the actions of strong acids on small pieces of iron, and is therefore an entirely different thing from organic iron. Nowated Iron.

It will not always to be finited of eating pounds of meat.

To prove to yourself what Nuxated Iron for set along the meat. To prove to your cheel of meat.

To prove to yourself what Nuxated Iron for a month and have a new "blood-count" made and see how your red blood corpuscles have increased and how much stronger and better you feel, see how the color has come back to your cheeks, how steady and strong your nerves have become. Over 4.000,000 people annually are using organic iron, and is refunded by the manufacturers if you do not get the full strength of the form of the first of the letters N. I. on every tablet. Sold by all druggists.—Alvays insist on having genuine organic iron.—Nuxated Iron.

Look for the letters N. I. on every tablet.
